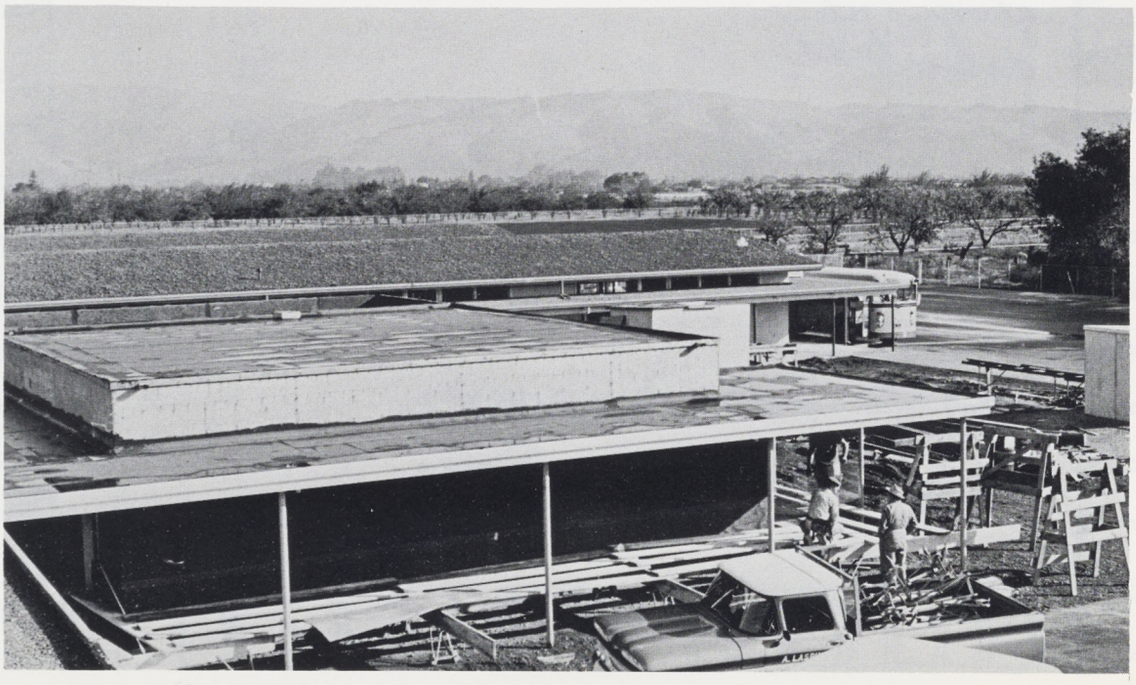
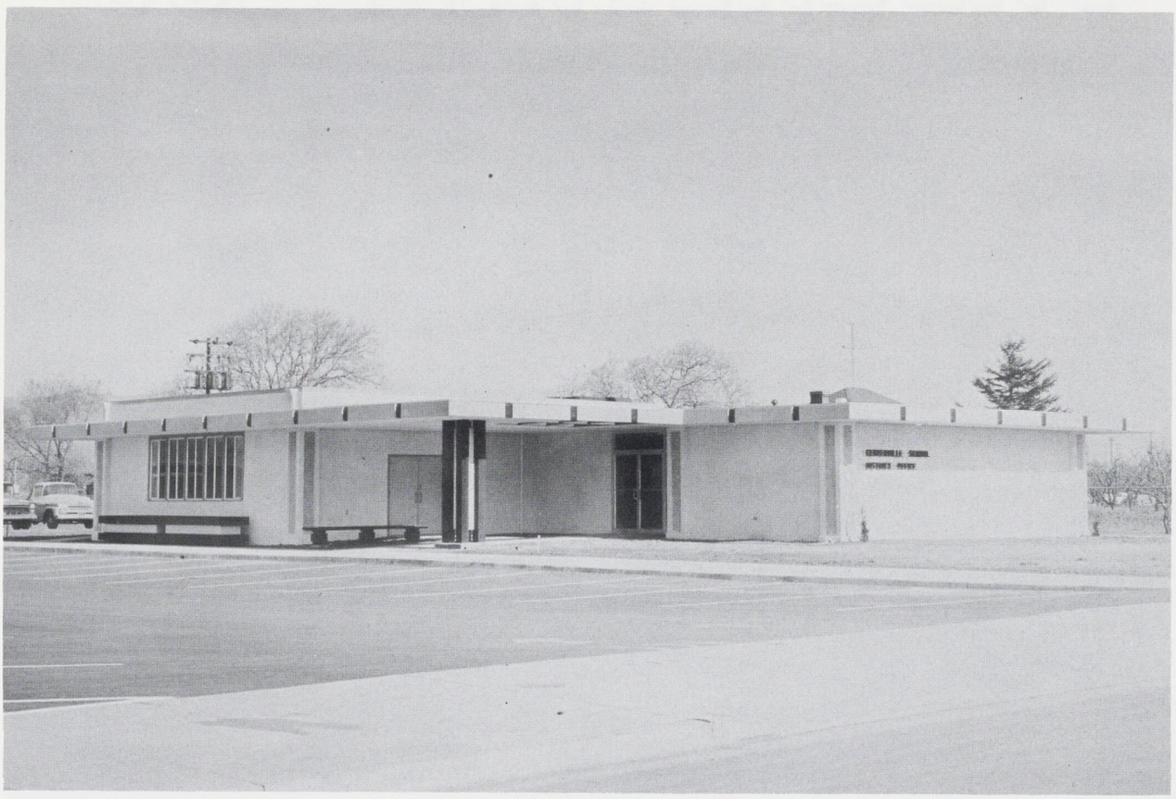
Seated: Elsworth Finlay; Mary G. Rodrigues, Clerk; Claire Lopez.

NEW CONSTRUCTION, CENTERVILLE SCHOOL



ADMINISTRATION



OFFICES, CENTERVILLE SCHOOL DISTRICT

Centerville School District was established in 1852. During the past ten years the enrollment has grown from five hundred students to approximately four thousand. In the one hundred and one years since the first Centerville School was built on the present site, there have been various construction changes and new buildings.

This year, construction activity at the Centerville School is evidenced by seven new classrooms, music room, and a teachers' workroom.

The new district office building, pictured above, has also been completed. This building contains district offices and a meeting room.

The excellent planning and hard work by our Board of Trustees and District Superintendent are demonstrated by the fact that the Centerville School District is one of the few in the state with six complete schools. Each school has a library, a cafeteria, an auditorium, a room for speech, a health room, offices, well-equipped playgrounds, and other necessary facilities.

Laura Schwartz

Yearbook Editor

SUPERINTENDENT

Our Board of Trustees, our school employees, and our parents are proud of the three thousand eight hundred (3800) students enrolled in our six schools. We have a right to be. There are no finer boys and girls anywhere.

We do not claim perfection; we realize there is always room for improvement. However, our youngsters, by and large, do their very best and their best has been very good.

Over the years we have followed progress of the graduates of our Centerville School. Their records of achievement have been tremendous. Yes, our students have had ability measured in "I.Q." (Intelligence Quotient) but they have also had "I will" and many have found key to success is simple hard work. It is gratifying to see students do the most with what they have. One of the national goals in education states, "We wish each one to achieve the promise that is in him."

We wish to express our "thanks" to all whose cooperation, assistance, and hard work have made this "Yearbook" possible.

Tom Maloney

ASSISTANT SUPERINTENDENT

Dear Boys and Girls,

This year your yearbook depicts the growth of the Centerville School District. We have more schools, more pupils, more teachers, more educational offerings, more of everything, and the trend will continue.

We encourage you to consider your education in a similar vein. The areas of learning are limitless; consequently, your education should continue to grow because, as you may realize, the more learning that you acquire the more valuable you become to yourself, to your family, and to society in general.

Congratulations to the members of the graduating class and best wishes to all for a happy, restful and safe summer.

Very sincerely,

Philip Brazil

PRINCIPAL

Dear Boys and Girls,

The time has arrived again when we must say goodbye to some of you. We have watched you anxiously as you progressed through the eighth grade and have noticed with satisfaction your social and academic growth. We wish you the best success in your high school years ahead.

As our seventh graders move toward their eighth grade year and into positions of leadership, we greet you. Your eighth grade year will be vital in preparing you for high school. We look to you for leadership in the Student Body and other phases of student activity.

To all of our students, we wish to thank you for the fine cooperation we have received this year. Keep up the good work.

Arthur H. Schnabel
